

# **Kansas County COVID Rankings**

November 1st, 2021

#### Kansas County COVID Rankings

Multiple factors impact COVID-19 vaccination and testing rates in Kansas communities. State, county, and local leaders must work together to stop the spread of the dangerous delta variant and keep Kansas businesses and schools open. This data – to be updated 3x/ week – will empower local leaders to take timely actions to keep their communities safe.

Counties ranked on each of three COVID measures:

- Vaccination rate<sup>1</sup>
- Average number of COVID cases<sup>2</sup>
- Average number of COVID tests given<sup>3</sup>

Rankings from each measure are summed for total score, which is converted into a single ranking:

- Lowest risk county has #1 ranking (highest vaccination rate & avg. tests; lowest avg. cases)
- Highest risk county has #105 ranking (lowest vaccination rate & avg. tests; highest avg. cases)
- When the point score is the same, counties are assigned the same ranking

<sup>1. %</sup> of eligible population (12+) fully vaccinated; defined as people who have received the second dose in a two-dose COVID-19 vaccine series or one dose of the single-shot J&J/Janssen (CDC)

<sup>2. 7-</sup>day average daily cases / 100k people (KDHE)

<sup>3. 7-</sup>day average daily tests / 100k people (KDHE)

# Kansas County COVID Rankings (I/V)

County	Vaccination rate <sup>1</sup>		COVID-19	Cases <sup>2</sup>	COVID-19 Tests <sup>3</sup>		Rank
	Rate	Ranking	Cases per 100k	Ranking	Tests per 100k	Ranking	
Allen	47%	75	40	53	340	72	84
Anderson	47%	79	28	31	265	86	83
Atchison	47%	74	30	38	319	<i>7</i> 5	72
Barber	51%	49	10	2	203	100	49
Barton	46%	84	44	59	459	43	71
Bourbon	40%	99	31	39	125	104	99
Brown	65%	5	63	80	668	19	16
Butler	50%	59	36	50	540	32	40
Chase	47%	73	63	81	388	63	92
Chautauqua	43%	93	51	66	264	87	101
Cherokee	48%	67	23	23	451	45	35
Cheyenne	48%	69	29	35	161	103	87
Clark	51%	51	61	77	652	21	48
Clay	61%	9	35	47	445	47	15
Cloud	51%	52	105	100	849	9	60
Coffey	56%	24	52	67	416	52	44
Comanche	51%	48	163	105	2361	1	54
Cowley	50%	60	22	17	561	30	17
Crawford	50%	57	14	5	242	95	57
Decatur	43%	94	71	85	243	94	105
Dickinson	56%	22	42	54	381	66	43

- 1. % of eligible population (12+) fully vaccinated; defined as people who have received the second dose in a two-dose COVID-19 vaccine series or one dose of the single-shot J&J/Janssen (CDC)
- 2. 7-day average daily cases / 100k people (KDHE)
- 3. 7-day average daily tests / 100k people (KDHE)

Points from each measure are summed for total score, which is converted into a ranking, the lowest risk has #1 ranking (highest vaccination rates & avg. tests; lowest avg. cases), the highest risk has #105 ranking (Lowest vaccination rate & avg. tests; highest avg. cases), when the point score is the same, counties are assigned the same ranking; county overall rank may be higher than each individual metric rankings because it is based on a sum of the rankings, not an average of the individual metric rankings

## Kansas County COVID Rankings | County Ranking Map

#### **COVID Ranking Map**

As of 11/1/21

#### Ranking Legend

#### **Key insights**

- Kansas has full vaccination ~63% of the eligible population (12+) ranking 27<sup>th</sup> nationally, but within Kansas there is significant variation by county
- Currently, the CDC¹ indicates that 105/105 (100%) counties in Kansas are at a "high" or "substantial" risk of transmission, reinforcing the need for local leaders to engage
- County COVID rankings will be fluid over time, we expect to see change in hot spot counties where case growth rates are high
- Report will be updated 3x per week and available on the <u>KDHE website</u>

#### Kansas County COVID Rankings | Resources to help counties

To increase vaccinations

KDHE provides <u>detailed manuals</u> for health care providers and local public health departments

The <u>Immunize Kansas Coalition</u> has numerous resources for communities to support vaccinations

The CDC provides resources to increase adult vaccinations and how schools can support vaccinations

To reduce COVID-19 cases

The <u>Kansas Association of Counties</u> provides resources and links for counties to access support from the American Rescue Plan

Review <u>CDC's community transmission</u> map to understand risk of COVID-19 spreading within your county

To maximize protection from the Delta variant the CDC offers <u>user friendly</u> <u>guidance</u> to prevent COVID-19 spread

**Testing efforts** 

KDHE provides information on <u>testing</u> and a convenient map with detailed info on testing sites, open hours, type of testing available, etc.

Communities can encourage local school districts who have access to \$74 million to support increased COVID-19 testing in pre-K to 12 grade schools.
